

PRESS RELEASE

Tropical Islands – Europe's largest tropical holiday world

Germany's highest water slide tower

The 27-meter high water slide tower at Tropical Islands is terrific fun for all the family. It has four different water slides, ranging from a leisurely tube slide to the high-speed power turbo slide, which has seen guests reach speeds of up to 70 km/h!

You have to ascend 110 steps before reaching the top platform of Germany's highest water slide tower. From there, you can enjoy a breathtaking view over Europe's largest tropical leisure world. To put the tower's height into perspective, 27 metres is about as high as a four-storey house. And the only way down from the top is the high-speed power turbo slide: a slightly curving slide which is sure to get your pulse racing. Guests have reached speeds of up to 70 km/h over the slide's 76-metre course.

At the foot of the slide tower is the gently undulating green steel slide. This is ideal for our younger guests! They can take the plunge with their parents or grandparents, as the slide has plenty of room for family fun on its 21-metre course.

The red Crazy River Tube Slide is somewhat more turbulent over its 112-metre course, while the yellow Long Water Slide (149 metres) has even more action in store. The latter takes a winding route back down to the water, sometimes even going round in circles. Fun is guaranteed!

Opening hours: 9:00 am – 1:00 am daily

Price: EUR 3.50 per day for unlimited sliding fun

Please note:

Visitors use the slides at their own risk.

Guests are requested to adhere to the safety instructions displayed in the slide tower.
